

CHEMPARK ID Application for External CPP/CSP Employees

Version 06/2021 EF

For employees of CHEMPARK (service) partners or their affiliates within the meaning of §§ 15 et seq. AktG from sites outside CHEMPARK* (*CHEMPARK sites are the sites in Leverkusen, Dormagen and Uerdingen.)

The information required is for setting up an employee file, for generating an ID and for allocation to the registering CHEMPARK company.

An extra fee will be charged for making use of certain CHEMPARK services. This is based on an agreement (e.g. an order) for CHEMPARK services for the named employee groups that must be concluded separately with Currenta.

If the deployment of the external CPP/CSP employee ends earlier than the period of deployment selected, the lump sum to be paid is correspondingly reduced or reimbursed for the period of deployment selected and not for the actual period of deployment.
