

How to fill in the form ...

Check-in form for assemblers/craftsmen/technicians (Day Pass)

In general: All fields not marked with „optional“ are mandatory! If the information is incomplete, you will not be admitted to CHEMPARK.

The type of service at CHEMPARK must be specified.

Attention: If access is requested only for the day of the first check-in, a day pass must be requested again for the following day.

The person in charge of the order at CHEMPARK must be reachable at the given telephone number at least 30 minutes before the scheduled arrival of the craftsman, so that CHEMPARK Security can legitimize the entry.

Attention: The craftsman must be able to present a valid official identification document for identification and, if applicable, a residence permit plus work permit at the gate. Which documents we are allowed to accept can be found at: www.tagesausweis.chempark.de

Do you also need a co-driver to enter CHEMPARK? Then it is mandatory to fill out a second check-in form! Here, too, an identification document is required for identification purposes. **Children and animals are not allowed.**

Entering CHEMPARK with your own vehicle is a special case. It is only permitted if unwieldy tools, materials or spare parts must be carried to complete the job. No vehicle entry without justification.

If materials or spare parts are brought to CHEMPARK, they must be specified as precisely as possible (e.g. serial number for spare parts) and the quantity must be indicated. If materials/spare parts are delivered and there is no delivery/collection bill, they must be listed on a tool registration form. Goods that are not intended for CHEMPARK must then be marked there so that they can be taken out of the site at a later date.

Additional cargo is cargo that is taken to CHEMPARK and also exported again because it is intended for another recipient. It must also be described and specified in quantity. This is because **additional cargo not specified on entry cannot be exported from the CHEMPARK until the ownership situation has been clarified beyond doubt.**

If only one tablet or laptop is being taken along, it is sufficient to note the serial number here. If tools or more extensive IT equipment are to be taken into CHEMPARK, this must be registered separately. Tools and IT equipment may only be taken out of CHEMPARK if the ownership situation has been clarified beyond doubt.

The craftsman signs the form only after having read the safety instructions on www.tagesausweis.chempark.de or at the gate.

Please fill in in PRINTED CAPITALS!
